

Tables:

Figure 1: Standard graph for lipase enzyme activity

Figure 2. Quantitative assay of lipase enzyme activity across bacterial isolates.

Figure 3: Effect of pH on lipase enzyme production.

Figure 4: Effect of temperature on lipase enzyme production.

Figure 5: Effect of carbon sources on lipase enzyme production.

Figure 6: Effect of nitrogen sources on lipase enzyme production.

Figure 7. Effect of inducers on lipase enzyme production.
